CAUTION TO THE PUBLIC.

12 Aino, 17 Akin. 22 Atol.

To avoid imposition, purchasers of Waltham Watche To avoid imposition, parchasers of waitham watches will observe that every genuine watch, whether gold or siver, bears our trade-mark on both case and movement. Gold cases are stamped "A. W. Co." and guarantee certificates accompany them. Silver cases are stamped "Am. Watch Co., Waltham, Mass., Sterling Silver," and are accompanied by guarantee certificates, signed R. E. Robbins, Treasurer. The name "Waltham" is plainly engraved upon all movements, irrespective of movements and put upon worthless movements of other makers, and vice versa, thus affecting injuriously the performance of the watches and vitiating our guarantee, which is intended to some cold. which is intended to cover only our complete watches wholly made by us. It is necessary, also, because it is so

wholly made by us. It is necessary, also, because it is so notorious as to be a public scandal, that there is great fraud in the metal quality of both gold and silver cases as now generally sold. We have demonstrated by frequent assays that many gold and silver cases offered in the market are debased from 10 to 20 per cent. from the quality they assume to be. This is a fraud upon the purchaser, and accounts for the low price at which such cased watches have been sold. cased watches have been sold. cased watches have been sold.

We take this occasion to announce that we have recently entirely remodelled the very popular grades of full plate movements, known by the marks, "Wm. Ellery," "Appleton, Tracy & Co.," "Waltham Watch Co.," "P. S. Bartlett," and "Broadway," giving to them not only a highly improved appearance, but great additional value. We embody in them such of the best results of our experience and study for twenty years as can be useful in this rience and study for twenty years as can be useful in this popular form of watch. We give these new model watches special recommendation to all who look for good performance and solid excellence at moderate cost. The was drivelling in defense of "the male Chinaman" K NOW ALL MEN BY THESE PRESENTS. that I, the undersigned, hereby strictly prohibit and forbid all persons from trespassing upon, or taking Figs, Cattle, or Horses, branded or unbranded; Birds of every kind; and from cutting Timber from the lands hereinafter specified, practical watch makers, as well as watch wearers. We avail ourselves, too, of this occasion to warn the sublic against CHEAP watches. The superiority of Waltham goods, in all grades, is now so generally ac knowledged that our competitors, Swiss and American, seem to have no resource but to present the attraction of low price. Their goods being inferior to ours, they have sell them for what they can get. Times are hard, and one, very often allow a small price to decide them. William Morris, the eminent English Lecturer on Artand Labor Topics, in a recent lecture delivered before the "Trades Guild," says:
"I know that the public in general are set upon having things cheap, being so ignorant that they do not know when they get them masty, also so ignorant that they

neither know nor care whether they give a man his due; I know that the manufacturers, 'so-called,' are so set on carrying out competition to its utmost, competition of cheapness, not competition to its atmost, competition of cheapness, not of excellence, that they meet the bargain hunters half way, and cheerfully furnish them with nasty wares at the cheap rate they are asked for, by means of what can be called by no prettier name than fraud."

We are much mistaken if this is what the public wants or expects, of us, at least. Good watches cannot be mad when neither workman nor employer has pride in his occupation; interest and pleasure in the work are both wanting, and both are essential to good watch-making. wanting, and both are essential to good watch-making.
Low price, especially in watches, means Low QUALITY,
with Low Penformance and High Repairs.
Our mission was, and our business is, to make good
watches, whatever the cost; holding firmly to this single
purpose, we have seen improvement in quality and reduction in cost, by means of discoveries and improvements in machinery and by natural causes, go steadily on together, until we can truly say, Waltham Watches, in their respective grades, are the best watches made, and as to the lower grades, they are within reach of every-body who earns wages. Our prices are as low as they ought to be, and as low as they will be. Watches cannot be made for nothing, even by machinery. We say to the public, buy a good watch while you are shout it, and pay a proper price for it. The more you pay an honest dealer the better satisfied you will be in the end; don't be de-ceived by cheapness—quality descends faster than price. For American Watch Co., of Waltham, Mass.
